Explanation of the Decision

Claim Number: 17306714276001

The claim is being dismissed.

This letter is to inform you that we have received your reconsideration request. Medicare contracted with C2C Solutions, Inc. to review your appeal and make a decision. We have determined that this

request is a duplicate submission of a request received under Medicare Appeal Number 1-7208048679. A decision was issued on March 15, 2018, therefore, this service is dismissed.

The decision of the QIC is to dismiss the service(s).

Claim Number: 17361748310000

For any item or service to be covered by Medicare, it must fall into a defined Medicare benefit category, it must not be statutorily excluded, it must be reasonable and necessary under §1862(a)(1)(A) of the Social Security Act (SSA), and it must meet other Medicare program requirements for payment. Sections 414.200 through 414.232 of 42 Code of Federal Regulations (CFR) cover payment for durable medical equipment and prosthetic and orthotic devices. The Medicare National Coverage Determinations (NCD) Manual, Publication 100-03, includes NCDs that pertain to certain Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS) items. The Medicare Claims Processing Manual, Publication 100-04, Chapter 20, instructs on billing and payment for DMEPOS. The Medicare Program Integrity Manual (PIM), Publication 100-08, Chapter 5, provides guidance on medical review. The manuals are based upon the above cited law and regulations. DME Medicare Administrative Contractors (MACs) publish Local Coverage Determinations (LCDs) and related Policy Articles. The LCDs address the criteria for "reasonable and necessary," based on Social Security Act §1862(a)(1)(A). The articles encompass the non-medical necessity coverage and payment rules.

At issue is payment for A9276-GX (disposable sensors).

The National Coverage Determinations Manual, Chapter 1, Part 4, Section 280.1 states that durable medical equipment (DME) is equipment which can withstand repeated use, is primarily and customarily used to serve a medical purpose, generally is not useful to a person in the absence of an illness or injury, and is appropriate for use in the home. All requirements of the definition must be met before an item can be considered to be DME.

The DME MAC denied payment because the disposable sensors not meet Medicare's meaning of medical equipment.

The Qualified Independent Contractor (QIC) performed an independent review. A letter was submitted by the beneficiary. However, Medicare does not cover the disposable sensor(s). A disposable sensor(s) is considered precautionary equipment. The DME Benefit excludes precautionary items from coverage. Therefore, the item cannot be paid. This does not mean that your doctor did not order the disposable sensors or that it is not helpful to you. It just means that Medicare cannot pay for it. Based on the available documentation, the requirements outlined in the National Coverage Determinations have not been met.

In conclusion, the decision of the QIC is unfavorable.

Claim Number: 18002800425000

Who is Responsible for the Bill?

The service at issue is denied because it is not a Medicare benefit. Based on this denial, J. Bloom is liable for the claim charge(s). No liability was assigned for the dismissed claim.
